/ THE STUDIO /

An interior architecture, lighting design and Landscape environment & architecture practice with a research-driven, nature-centric, and collaborative approach at its core.

/ THE STORY /

Established over a decade ago, our journey began with a passionate designer's vision to create a unique studio, seamlessly blending interior and lighting design. Since then, we've expanded our portfolio across residential, commercial, and public spaces, continually refining our craft with each project.

Our commitment to innovation and sustainability has led us to embrace cutting-edge technologies and materials, ensuring our designs not only dazzle the eye but also enhance well-being and connection.

In subsequent years, we joined forces with

like-minded individuals who shared our vision for seamlessly integrating interior design, lighting design, and landscape architecture. Together, we've redefined how spaces are conceived and experienced, prioritizing creativity and sustainability in all aspects of our work.

Despite facing challenges, our dedication to excellence has propelled us forward. Today, we stand as industry leaders, recognized for our innovative designs and commitment to quality. With a talented team and a diverse portfolio of award-winning projects, we continue to push the boundaries of design, leaving a lasting impact on the world around us.

LIGHTING & INTERIOR

PROJECTS

LIGHTING & INTERIOR

VILLA KALI

01 / 7

Light is central to the design of space.

It is not only a conceptual anchor, but a therapeutic element, a source of life, and a way to create dynamism, flow, and volume as well.

Pieces are aligned with light, volume is achieved using light, continuity is realized through light.

LIGHTING INSTALLATION

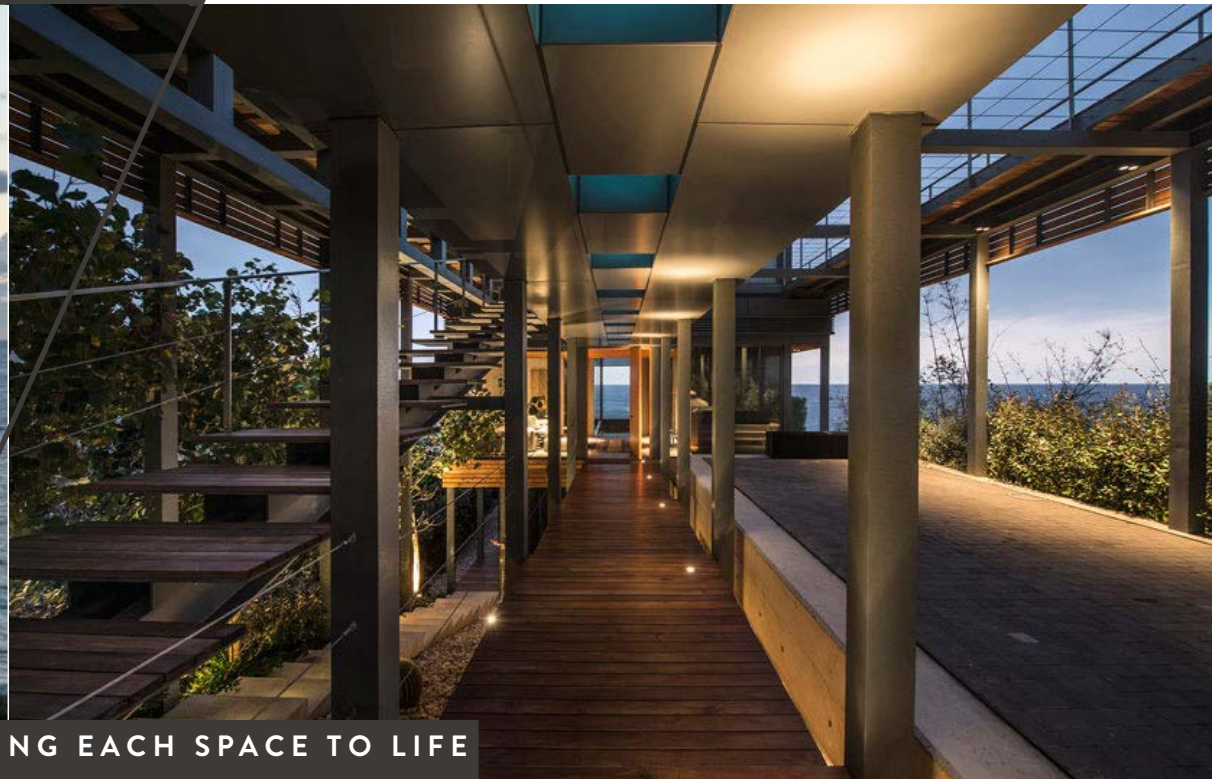

Rythm & Repetition of Custom Made lighting fixture as a scenography, each space is imagined as a set of theatrical moments defined through a delicate choreography of light.

To ensure that each project is a composite of diverse yet connected visions and identities.

CConcept works on open and continuous partnership, she nurtures a shared passion in the project that is key to bringing it to life.

COLLABORATION IS KEY TO

BRINGING EACH SPACE TO LIFE

CHOREOGRAPHY OF LIGHT

MOODS ARE CREATED

Concept wanders the space, feeling every possible mood that can be brought to life.

USING LIGHT

From there, the concept starts to take shape.

MOLDED BY LIGHT

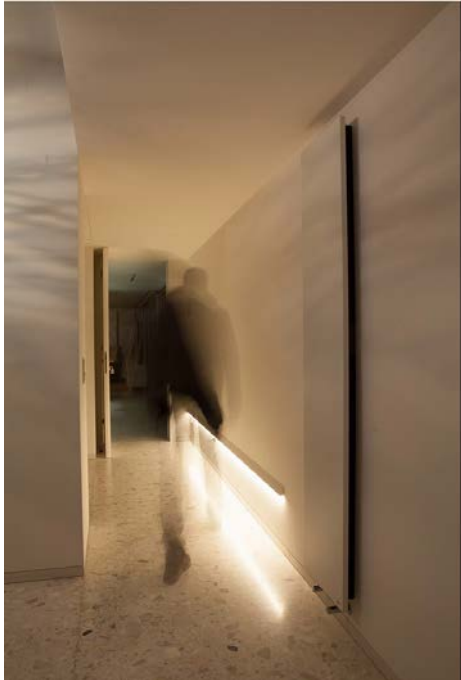

The concept is brought to life using the reflection and refraction of light.

Wellbeing is enhanced through light.

For Lighting Innovation to home automation system ,
Cconcept researches the latest technologies available in the industry that can enhance the overall living experience and is often the first to bring them to projects in Lebanon.

LIGHTING INNOVATION

EVERY ELEMENT SELECTED HAS A PURPOSE

Each piece is chosen for its functionality, high-quality, and contribution to the overall concept, allowing for versatility and evolution in the space.

LIGHTING & INTERIOR

SURSOCK

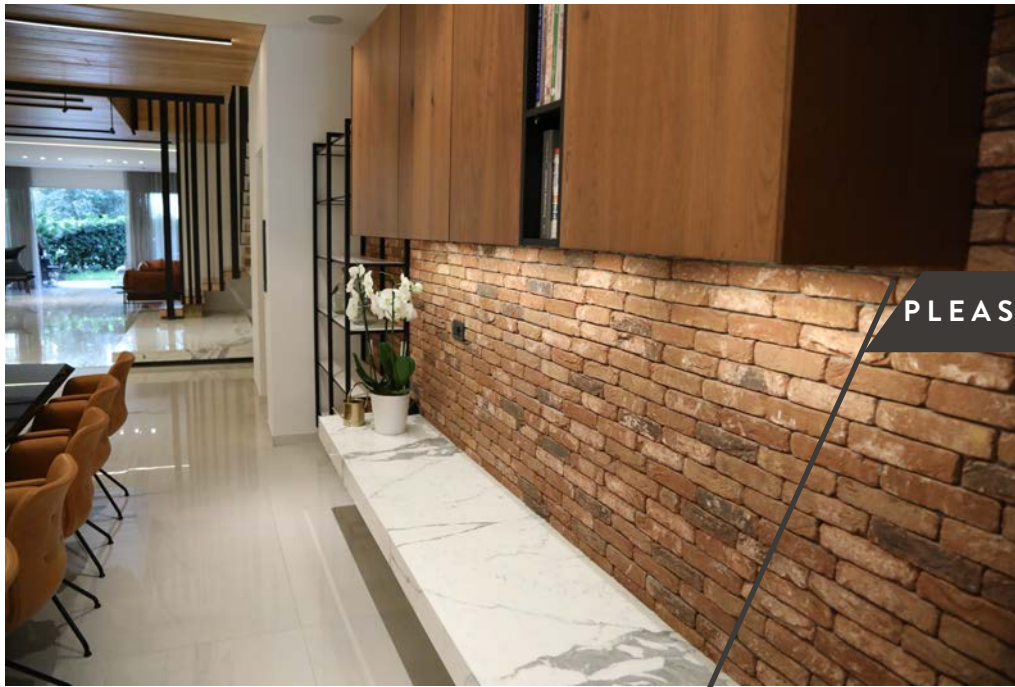

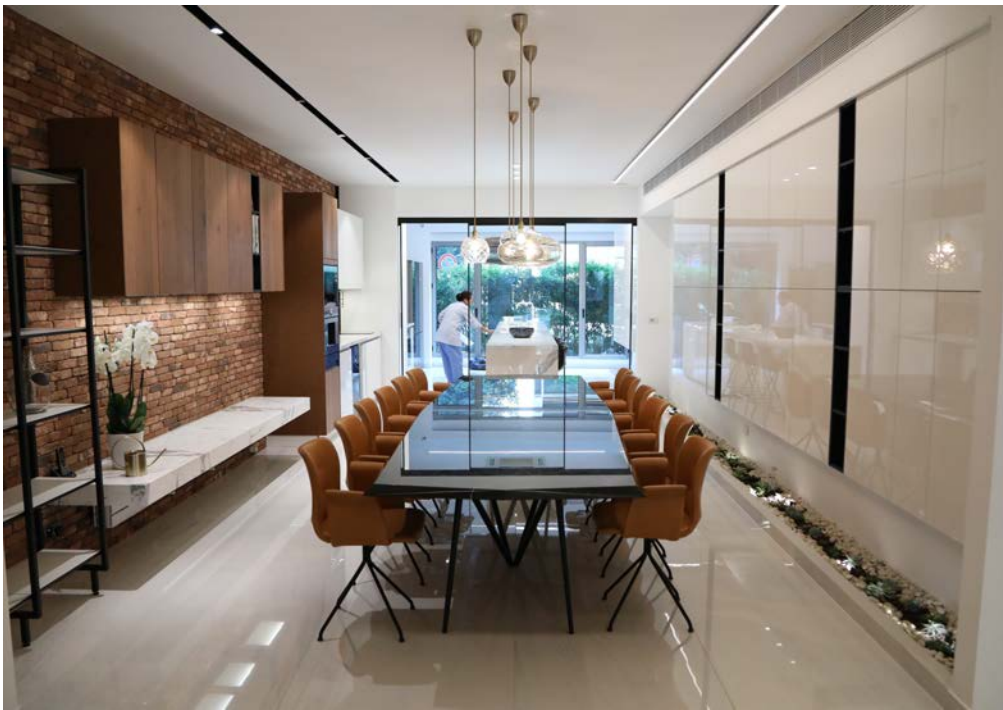

RESIDENTIAL

01 / 10

The interior is envisioned as a stage.

The space is designed to be in constant evolution, to convey distinct and diverse moods that when experienced alone can be likened to beautifully framed portraits, and that together form a larger, remarkable picture – the living space.

PLEASURE IN INHABITING URBAN SPACES

By having nature as a source of inspiration, light as a guiding force, and scenography as a lifelong passion, Cconcept understands the importance of examining and re-envisioning the role nature plays in our lives, enhancing one's relationship to the physical space, and integrating practicality and purpose into each design.

THREE DIMENTIONAL OPEN SPACE

Three-Dimensional raw material
/ cooper, marble, stone, wood, plaster/
details, and technology,
playing then meeting to tell a distinct STORY.

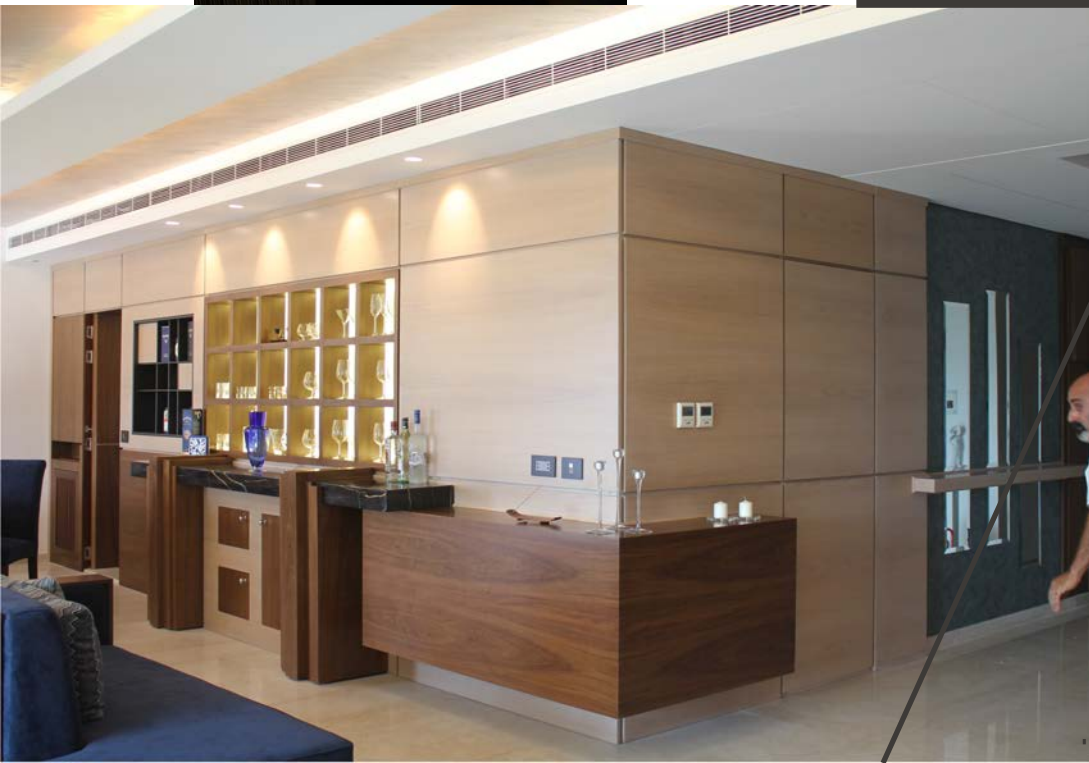

THE TRUTH IS IN THE DETAILS

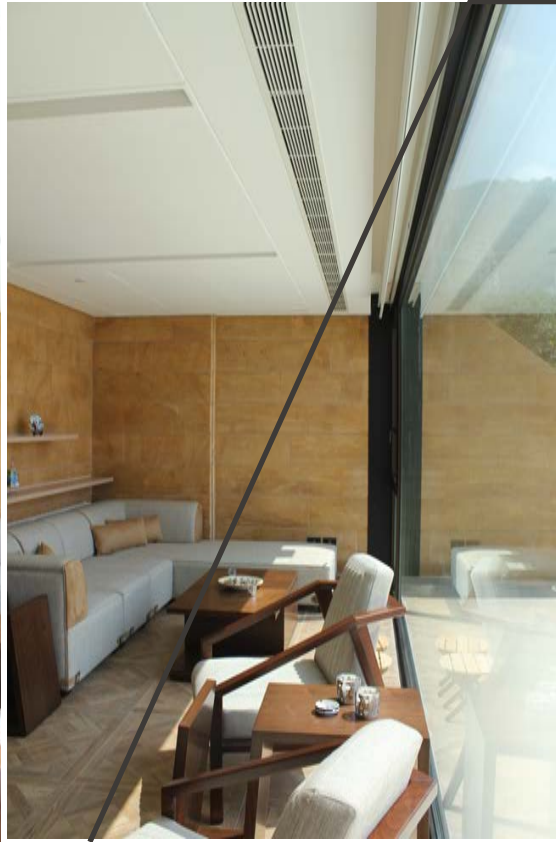

In it, a set of moods – much like scenes or acts in a play – emerge through the harmonization of light, raw material, and technology, playing then meeting to tell a distinct story.

SET OF MOODS

TWO-DIMENTIONAL

To ensure that each project is a composite of diverse yet connected visions and identities.

CConcept works on open and continuous partnership, she nurtures a shared passion in the project that is key to bringing it to life.

POLYCHROMATIC SPACE

NABULOUS

Raw material, in particular, is utilized as much as possible, reinforcing the connection with our natural surroundings and providing true pleasure in inhabiting urban spaces.

SIGNATURE

CLASSICAL

Just like a black dress, Classical Architecture will never go out of style.

Concept firmly believe that by working on buildings of different types and scales, where the work from one informs the next, an architect retains a much more holistic view, which leads to a fresh approach to each commission and a more thoughtful.

French Romantic white architecture that reflect the clients spirit.

Luxury is in each detail - details create the big picture.

HIDDEN SHELTER HOUSE

Celebrating the Marriage of Elegance and Security: Our Underground House Shelter -

A Masterpiece of Modern, Minimalist, Multifunctional, and Smart Architecture,

Ensuring Ultimate Safety and Comfort in Times of War

MINIMALIST

Villa Verde: Where every detail, from exterior to the interior design, is a seamless fusion of tranquil dark blue-green hues and natural materials, echoing the serenity of its mood board inspiration.

We start by thoroughly studying the mood board by identifying key elements such as colors, textures, materials, and overall mood and ensure that Villa Verde emerges as a uniquely cohesive and immersive space that reflects the original inspiration.

VILLA VERDE

inside Villa Verde, we translate the mood board's colors and materials into the living spaces. Walls are painted in shades of dark blue-green, flooring feature natural materials like hardwood or slate in similar tones. Furnitures are selected to complement the overall color scheme.

ITALIAN RESTAURANT /

TREE HOUSE IEBANON

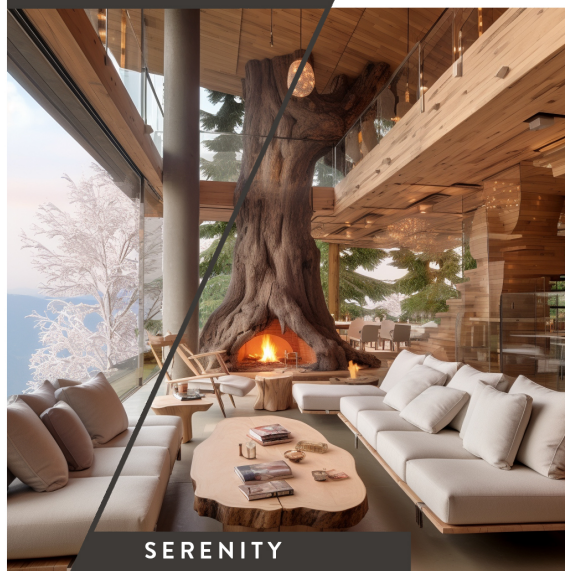

CEDAR TREE HOUSE

A Modern Lebanese Treehouse Embracing the Symbolism of the Majestic Cedar”

This architectural project celebrates the rich cultural heritage of Lebanon by incorporating the majestic cedar tree, a national symbol known as the “God tree,” at the heart of a modern treehouse design. Inspired by the beauty and resilience of the Lebanese landscape, this project envisions a harmonious blend of nature, architecture, and art, symbolizing the transformation of Lebanon into a contemporary and forward-thinking nation.

This project serves as a testament to the transformative power of art and architecture, showcasing how they can inspire a new era of growth, creativity, and pride in the nation’s cultural identity.
